ONE MORE Another Prominent Democrat Desert

Cleveland. PROVIDENCE, Oct. 8 .- General John M. Brennan, an astute Democratic politician, in discussing the political affairs of the state and nation, said:

The Democrats cannot win in Rhode Island, for they have nothing whatever to win on. The national party very foolishly went to the country with a defeated candidate, and they cannot recover the presidency. Cleveland was defeated with the federal government behind him and more than 100,000 officeholders, all of whom ought to have been with Cleveland, but they were in the majority against him, and when the election came around again in 1888 they largely voted for Harrison. There is but one logical conclusion to this part of the political outlook, and that is, What can Cleveland do without the federal patronage in 1892 when he could not win with it in 1888?

Cleveland, who became so jocular and sque in his thousands of pension vetoes to the poor Union soldiers' claims, will never be forgiven. He drove many nails in his political coffin when he made those vetoes. No one in all this country ever heard before of a candidate going to the people as a nominee for a great office against the expressed wishes and desires of the state delegation whence he came. In the November elections in Rhode Island the Democrats will be sure to see to it that the Cleveland following choose two Mugwump candidates as the nominees for congress, and they can go down with the ill starred coterie of managers who expended so much money to secure the Cleveland delegates to the Chicago convention. These same Mugwumps in Rhode Island caused the defeat of the Democratic party in this state in the last April elec-

POWDERLY FOR PROTECTION.

The Labor Leader Leaves the Demo cratic Party.

A Wilkesbarre (Pa.) dispatch says: General Master Workman Powderly, of the Knights of Labor, and Channesy F. Black, president of the State League of Democratic Clubs, met at the Delaware and Hudson railroad depot in Hyde Park this morning. Mr. Black was taking the train for his home in York, Pa., after attending the annual convention of the Democratic clubs in Scranton. Powderly grasped the Democratic statesman warmly by the hand and said: "Can you tell me where Cleveland

stands on the tariff?" Mr. Black replied, "That's more than I can tell, although if you asked where

I stood I would be able to tell you." "I tell you what," said Powderly, "I don't think he knows where he stands. He is at sea. I used to admire that man, but since his meddlesome interference with the silver question I have lost confidence in him. As between the Republican and Democratic parties I am a Republican this time."

The stand Powderly takes will create a sensation in labor circles. He has always been a Democrat,

SICKLES STILL DEFIANT.

He Slashes Grover Vigorously at the General Sickles still "has it in" for Mr. Cleveland. Addressing his old comrades of the gallant Third corps in Washington he defended the pension system, which recognizes in a practical war the services which the soldiers of the Union armies had rendered their courterv in its bour of peril. But be said

more, and these are some of his words: "You are going home now, and there

is something I want you to take home with you. Ponder it; teach it to your children; tell it to your neighbors. It is this truth: That the people of the United States will see that no man is ever elected to an office of profit and trust in this country who opposes the payment of pensions to the soldiers of the Union."

That was a saber thrust at Mr. Cleveland, who was never so merry as when hunting for half a reason to veto a widow's pension. The report continues: "The general leaned on his crutches as he spoke these words, and the sharp,

idiomatic, merciless sentence, clean cut as a paragraph of constitutional law, cut-tipough the air like the sleah of a cavairy saler. He rammed the words home hard, as Captain Bigelow did the last charge of the Massachusetts battery of the Third corps, and the effect was as instantaneous as when Captain Bigelow pulled the lockstring. In a moment what was left of the cl. Third corps spoke with its old charging ring its opinion of the man whose only joke was cut at the expense of disabled veterans. 'Three cheers for the man who made that speech,' cried Comrade General Carr, springing to his feet, and again the charging cry of the old Third corps rang out into the night of Grand Army place and rolled up to the White House. General Sickles was evidently right

the votes of the men who fought to preserve the Union. PERTINENT QUERIES.

Grover Cleveland would never receive

Some Knotty Questions for Democra to Answer.

If foreigners do not pay the duties, why should they remove their factories to the United States?

If the United States is not producing tin plate in commercial quantities, why are sixty Welsh tin plate works idle? If the McKinley wool duties did not protect American wool prices, why has the price of wool fallen in the London

market over 21 per cent, since January, 1890, while in the same time the fall in the price of American wool has been only 7 per cent? Why should Democratic Labor Commissioner Peck's report, showing how the McKinley law has increased wages

and given life to industry, cause such great sorrow in the free trade camp? If the tariff has caused strikes, why were there 1,740 fewer strikes in New York state in 1891 than there were in

Is the example of Grover Cleveland, who immediately before his first nomination for the presidency confessed that he "didn't know a thing about the tariff" and who wrote his tariff message at the dictation of southern free traders, a better one for Democrats to follow than that of Jefferson, Madison, Jackson, Benton and Randall?

With cost of living lower and farm prices higher than two years ago, as admitted by Democratic Senators Carlisle and Harris, would not the farmer be foolish indeed were he to vote against protection, the farmer's policy?

Are the free traders who attempted to nullify the constitution in 1882 and rebelled against it in 1861 better judges of its provisions than the protectionists who fought and bled for it during five long years of war?-American Econo-

A quarryman at West Rutland, Vt., fell a distance of sixty feet to the bottom of a quarry, but, strange to say, no bones were broken.

When Nature

Needs assistance it may be best to ren- BOARDING STABLE der it promptly, but one should remember to use even the most perfect remedies only when needed. The best and most simple and gentle remedy is Syrup of Figs, manufactured by the California Fig Syrup company.

Every well regulated household is ow calculating on the comforts to be derived in the house during the comckers, sideboards and odd pieces are being given away at ridicu ously low prices, in fact way below cost. This significe comes about as we are closing out every odd piece of goods in our stock, preparatory to moving our offices and salesrooms to our factory; if y u want a complete stock to select from, call early at the Phoenix, corner Ottawa and Louis streets.
